

Lavilin

7 days Underarm Deodorant Cream 72h Deo Stick & Roll-on 48h Deo Stick & Roll-on

**To achieve best results,
please read this instruction sheet
carefully before using
the product.**

Lavilin – the “single application” revolution.

A single application eliminates perspiration odor up to 48h, 72 h or even up to 7 days.

Small amount of cream or use of stick or roll-on – **long lasting** odor protection.

For maximum effectiveness – recommended for use at night, before bedtime.

Lavilin – alcohol-free, aluminum-free, paraben-free!

Lavilin – **water resistant!** Shower, sports, swimming and strenuous physical activities do not interfere with Lavilin’s effectiveness.

Recommended for Athletes!

Gentle – herbal extracts moisturize, soothe and protect.

Adaptation Period: In the transition to Lavilin, you may need 5-7 applications to attain maximal individual effectiveness.

“Deo to go” – if perspiration odor reappears during the day, a single application of Lavilin – no need to wash – and the problem disappears immediately.

Use only as directed. Do not swallow. Avoid contact with eyes. Keep out of reach of children. Do not apply if there is known sensitivity to any of the ingredients.

Developed and Manufactured
by **Hlavin Industries Ltd.**
– International –

Before first application:

Refrain from using any other deodorant for 48 hours to refresh skin and enable Lavilin to provide maximum protection.

Instructions – For each underarm:

- **Wash** underarm area and dry thoroughly.
- With the enclosed spatula, **place** on your fingertip a small amount of Lavilin or apply deo by using stick or roll-on in 1 single motion.
- **Spread** gently in the center of the underarm (only applicable for the deo cream > see picture below).

Re-apply Lavilin only when odor reappears.

- Do not apply after shaving, or to irritated, broken skin.
- **Do not use together with other deodorants.**

Effectiveness varies depending on individual lifestyle.
