

SOLITAIRE

A single player challenge.

Contents:

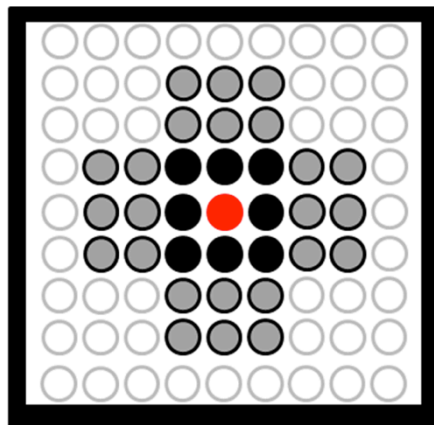

- 1 wooden board
- 33 wooden balls- colors do not matter

Object:

To remove all of the balls from the board except for a single one on the red dot in the center of the board.

Setup:

Place all of the pieces on the board according to the diagram below.

Play:

The game begins with all of the balls arranged on the board, leaving the red dot in the middle of the board an empty space.

Jump one ball over another ball to an adjacent empty space.

Balls may be jumped over either vertically or horizontally, not diagonally.

The ball that was jumped over is removed.

Continue in this fashion until you have reached the goal of a single ball in the center of the board, or until there is no way left for balls to jump over each other.

Note that the four corner squares of the board, as well as all of the spaces on the sides of the board, do not have pieces arranged on them at the beginning of the game, and therefore pieces may not reach them at any point during the game.

Good Luck!
